Council Purchases Three Main Street Lots for \$1,000

Council Must First Secure
Permission of International
Company to Permit Curling
Arena to be Built in
Flummerfelt Park

Regular meeting of the council
was held on Monday evening
Present Mayor Antrobus, Coun-
cillors Aboussafy, Cox, Dutil,
Lowe, Jenkins and Ramsay.

The Canadian Legion delega-
tion of H. Houghton, M. Joyce
and G. Derbyshire was present
to ask council whether or not it
was in favor of purchasing the
three lots, on Main street east
and owned by Charles Sartoria,
at a cost price of \$1,000. Much
discussion took place on the sub-
ject and the council was assured
that should it buy the lots the
Legion would consider it as their
duty to build a rock wall around
the property, straighten the lots
out by building a concrete shield
over the creek which runs
through one lot, bringing in soil,
seeding it to grass, carotizing,
making bowling alleys, building
a cairn, etc. The lots will be
made into a park and become
known as a Memorial Park, the
cairn bearing the name of Cole-
man's fallen both in this and the
last war. Towards the end of the
meeting the vote was unanimous
that the council purchase the lots
and the go ahead, subject to be
given the Legion. A contract will
be drawn up between the Legion
and council pertaining to the
Memorial Park at a later date.

The latest analysis on the
drinking water showed the sam-
ples submitted as good.

Chief of police Wm. Antle sub-
mitted his March report. One
man had been brought into court
on a charge of theft. He had
paid the costs of the court and
given back \$25 of the alleged
stolen money.

A dog had been run over by
a car on main street and killed.
An attempted break-in to one
local store had been made. The
laundry of Sam Lewis is in a poor
sanitary condition and had been
authorized to be cleaned up im-
mediately. Charles Freeman
clothing salesman, had paid his
1944 license of \$25. A number of
citizens were unaware that they
were expected to pay a dog
license if they owned a dog. In-
vestigation regarding some un-
known party shooting a dog on
third street had been investigat-
ed. No definite information had
been secured as to the guilty
party. A number of youngsters,
14 years and under, are disobey-
ing the curfew law. Some are
particularly troublesome and a
few may find themselves in
court if they do not stop fre-
quenting main street after the
curfew bell has rung.

A by-law setting aside the
sum of \$150 for grants to vari-
ous organizations during the
year was passed.

A bylaw striking the 1944 mill
rate at 22 mills and allowing a
10% rebate on curfew tickets if
paid within a certain date was
passed.

Public Works chairman W.
Dutil reported on several ash
complaints. He inspected the
Adam Rucka home in West Cole-
man and thought it would be
in the best interests of all con-
cerned if the contractor, W. E.
International company to send
its engineers to inspect the
Rucka and Sorroff properties in
West Coleman as the proprie-
tors are claiming damage through
soil subsidence.

The sports Association asked
council to submit its bill for half
the expense incurred in operat-
ing the open air skating rink
this winter.

Prior to the council meeting
five councillors met. A. A. Fraser
in Flummerfelt park where they
were shown the proposed site
for the new curling rink. Dis-
cussion arose at the meeting
when the blue prints of the rink
were placed on the table. Sec-
retary Gladys Lees had a copy
of the agreement between In-
ternational and Council which
revealed the council only asked
the Park for 99 years and did
not own it as many councillors
thought.

As a result council have given
their consent for the building to
be erected provided it meets with
the approval of International
company, Mayor Antrobus, Coun-
cillors Aboussafy and Jenkins
were delegated to approach In-
ternational company to seek its
approval.

—A Columbia University pro-
fessor declares that bombs being
dropped on German cities are
"highly educative" in that they
are blasting legends of invinc-
ibility and racial superiority out
of Teutonic minds. We are pre-
pared to give a thorough post-
graduate course in this, if neces-
sary.—Washington Star.

Grand Concert to Open Sixth Victory Loan

Two Films Will Be Shown;
Speakers Will Be Brought In
And Local Artists Featured

On Sunday, April 23, the
Sixth Victory Loan in Cole-
man will be launched with
the staging of a grand concert
in the Community hall at 7
p.m.

Speakers, probably men re-
cently returned from overseas,
will be brought in for the oc-
casion. Two films carrying a
message of strong appeal will
be shown and are entitled
"War Department Report" and
"Target Berlin." Local
members of the pay-roll de-
ductions plan have witnessed
these films and they strongly
urge citizens of Coleman to
see them.

In addition to speakers and
films local talent will be heard
in vocal and instrumental
music.

Unit chairman Wm. White
and unit organizer Frank
Aboussafy will each address
the audience on the Sixth Vic-
tory Loan drive.

YOUNG "SOLDIER"
DECORATED

An important little ceremony
was performed at Cameron school
last Thursday by Miss Yull, who
before the whole gathering of
pupils decorated Stephen Durek
with the button and ribbon, which
portrays the fact that Steve has
saved his pennies to the amount
of two dollars and given it to the
Junior Red Cross. This is the
second time a pupil has been thus
honored, the previous occasion
was when Johnny Taron received
the button and ribbon for his
donation of two dollars.

Such deeds of unselfishness are
highly commendable and these
little fellows have a right to be
proud of their buttons; it means
the giving up of many candy
bars and such things and speaks
well of the fine ideas imparted
to them by their parents and
teachers.

Coleman's Junior Red Cross is
the oldest branch of the orga-
nization in Alberta, and the work
done by these young people is
nothing short of great. We may
be assured that as many of the
Coleman boys move around in
the war zone and see and hear of
the wonderful assistance being
given by the Junior Red Cross to
children who are left orphans
through the "blitz", they will feel
a sense of pride in remembering
that they too were once members
of the same organization and
which the "kid" sisters and
brothers are keeping very active.

The Ladies Aid of

Income Tax Returns FOR 1943 MUST BE IN NOT LATER THAN 30TH OF APRIL 1944

1. WHO MUST FILE RETURNS?

If you are single, and your income was over \$660.00—
Or, if married, and your income was over \$1,200.00—
Or if you had tax deducted in 1943—you must file returns.

2. WHAT FORMS TO USE

For income under \$3,000.00 use Form T.1 Special.
For income over \$3,000.00 use Form T.1 General.

3. WHERE YOU CAN GET FORMS

You can get income tax forms from—

1. Post Offices.
2. District Income Tax Offices.

Your early co-operation is requested. Over 2,000,000 Canadians
will be filing income tax returns. You can help by getting your
forms now, and mailing them promptly.

It is important that income tax returns be filed promptly. First,
these returns must be filed to obtain credit for tax deductions.
Second, to claim any refund to which you may be entitled. Third,
to establish the Savings Portion of your tax, which will be paid back
to you with interest after the War.

Make your returns now, but not later than 30th of April
to avoid a penalty of 5% of your tax.

The unpaid balance of your 1943 tax may be paid any
time before 31st of August WITHOUT PENALTY.

GET YOUR "T.4 SLIP" FROM YOUR EMPLOYER

To get a record of your 1943 earnings and tax deductions, ask
your employer for a copy of the "T.4 Slip" he filed with the Govern-
ment. Do this. It will save you time, and help prevent errors.

DOMINION OF CANADA—DEPARTMENT OF NATIONAL REVENUE

INCOME TAX DIVISION

COLIN GIBSON
Minister of National Revenue

C. FRASER LLOYD
Deputy Minister of National Revenue for Taxation

GRAND SUPPORTER OF MAGAZINE DEPOT

Mr. Jim Tutt of Hillcrest was
again seen bringing magazines
into Mrs. Antrobus' office, there
must have been at least 1500 lbs.
gathered from Hillcrest, Bellevue,
and Burnside district. When these
are packed for shipment the total
amount sent from Coleman will
be over 27 tons, this represents a
lot of reading matter for the boys
and will relieve the monotony of
many hours at sea. Save your
magazines for us and we will see
that your boys get them.

Legion Holds Smoker To Commemorate Vimy

S. C. Short Chairman; Many
Artists; 125 Persons Present

On Friday evening one of the
best smokers ever sponsored by
the Coleman branch of the Cana-
dian Legion was held in the
club rooms. The occasion was to
commemorate the heroic deeds
of Canadians at Vimy Ridge. S.
C. Short was chairman of the
evening's program.

Chairman Short gave an ad-
dress in which he touched upon
conditions in the last and pres-
ent wars. He was followed by
brief addresses from Geo. Der-
byshire, H. Houghton, M. Joyce,
Wm. Chapman and Robt. Burr.
Mr. Burr has only recently re-
turned from overseas and received
his honorable discharge. He
voiced the thanks and apprecia-
tion of Coleman boys overseas
for the regular monthly shipment
of 300 cigarettes from the Over-
seas Welfare League.

Artists on the program includ-
ed H. Houghton, song; W. Smith,
song; Bert Garrett, song; John
Anderson, accordion selection; W.
Jackson, song; A. Wilson, recita-
tion and song; Dr. Maynes, recita-
tion; A. McCulloch, song; Sgt.
Ince, of Pearce, song; R. Lloyd,
song; J. Moore, recitation.

There were 125 persons in at-
tendance.

St. Alban's Tombola Winners

Ladies Guild of St. Alban's
held whist drive on Monday
evening at which time the tombola
draw was made.

Winners were: Comforter, Mary
Slugg, ticket 517; 2 Mikado
cups, Mrs. A. Fairville, ticket 53;
\$5.00 certificate, Mrs. R. Dobson,
Leitbridge ticket 397; silk
cushion, Chick Roughhead, 346;
\$4 merchandise, Mrs. Jesse Hirst,
255; 55 certificate, John Edwards,
England, 755; \$4 merchandise,
Mrs. DeMarin, 340; silk cushion,
Mrs. H. Chas, 291; table lamp,
Mrs. H. Raymond, 286; pair hem-
stitched sheets, Mrs. A. F. Short,
761; 98 flour Mrs. L. A. Caroe,
186; lace table cloth, 433; gent's
pullover, Miss A. Phillips, 151;
berry set, J. A. C. D'Appolonia,
581; \$2.50 groceries, Mrs. M.
Joyce; 2 chickens, Mrs. G. Mor-
gan; \$2 cash, Baby Lloyd, 695;
\$2 cash, D. R. D'Appolonia, 585;
cup and saucer, Mrs. J. Bayon,
Calgary, 459.

16 tables of what were in
play during the evening, win-
ners were Mrs. I. Neilson, Mrs.
O. Smith, Mrs. J. Kinnear and
Mrs. W. H. Garner. Whist
prizes were donated by Mrs.
George Morgan, Mrs. E. X. Hill,
Mrs. Fred Antrobus and Mrs. S.
C. Short.

An excellent lunch was served
by the ladies following the
whist.

St. Alban's Ladies Guild wish
to thank everyone who donated
prizes and bought tickets for the
tombola and whist drive.

HAS FOOT AMPUTATED

James Denholm has been in
Calgary during the past several
weeks having spent some time in
a city hospital where he had a
foot amputated.

The foot had been injured some
years ago and had caused much
pain and caused a decided limp.

Drama Festival April 19 and 20

The Lions Club drama festi-
val will be held Wednesday and
Thursday of next week in the
Community hall, commencing at
8 p.m. sharp on each evening.
This festival has every indica-
tion of surpassing previous
festivals, five entries have been
received, making it necessary to
extend the festival to two nights.
An entirely new program will
be presented each night. Groups
competing for the Lion's Shield
include Coleman Players who will
present "The Monkey's Paw".
Coleman Drama Club, winners of
the shield two years ago will
present "Still Stands the House".
Last year's winner of the shield,
Hillcrest group, will again com-
pete by presenting "An Airman's
Forty-eight". Cardston Dramatic
Club will make a bid for the
Lions Shield by entering two
plays, "Joint Owners in Spain"
and "An Airman's Forty-Eight".
The fact that "Airman's Forty-
Eight" is being presented by two
clubs will create unusual interest.

Only enough tickets will be
sold for each night to satisfy the
seating capacity of the hall. For
this reason it is urged that tick-
ets be bought early if you want
to be sure of a seat. In fairness to
the audience and to the groups
competing for the shield no one
will be allowed in the hall, only
during the intermissions.

As at past festivals, Mr. W. H.
Moser and his orchestra will be
present to render the overture,
and selections between perform-
ances.

This drama festival is being
sponsored by Coleman Lions club
who deserve your support, apart
from the fact that patrons will
get a full evening's entertain-
ment on each night.

3% Victory Bonds mean cash
for later emergencies.

Golden's
FINE CUT CIGARETTE TOBACCO

The Future Of Germany

ALTHOUGH IT IS FREQUENTLY STATED by officials of the Allied command that an early end to the war should not be expected, there is bound to be widespread speculation as to the fate of Germany when she is finally overcome. Naturally there is a general desire to see a nation which has so brutally overrun the greater part of Europe made to suffer for her crimes, and numerous proposals have been brought forward in this connection. As in many other matters related to the war, it cannot be expected that the Allied leaders will make any definite commitment in advance, but it is believed that a plan does exist. Following the conference at Teheran, when Prime Minister Churchill, Marshal Stalin and President Roosevelt met, it was announced that problems of the future had been discussed, and without doubt the fate of Germany figured in these conversations.

Ensure Peace And Security

While there are many who are of the opinion that Germany should be drastically stripped of territory and resources, it is thought that action in this regard may not go to the lengths sometimes advocated. There is no question but that German war industries must be entirely destroyed, and that measures must be taken to make sure that they have no opportunity to manufacture war materials in the future. The opinion has also been expressed in the British press, that Allied supervision must be exercised over many of those industries which remain, including the transportation and power services. In regard to territorial settlements it is clear that Germany will have to relinquish all the land she has acquired by aggression and that her boundaries will have to be adjusted in the interests of European peace and security. There is also the probability that certain states now within the Reich, such as Austria, may choose to withdraw when the war is over.

Re-education Is Important

Official circles have not favoured plans for partitioning Germany into a number of small units, for history has shown that such action only serves to strengthen national spirit and to promote trouble and unrest. It is also felt that to bring about her complete financial and industrial collapse would have a serious effect upon the whole economic structure of Europe. It is apparent, however, that she will be stripped of all means of building up another war machine or in any way preying on surrounding nations. Present plans for a strong European Federation also make it appear unlikely that Germany will ever again menace the security of that continent. One of the most important problems which will arise in connection with the settlement of the war will be the re-education of the German people. The destruction of the Nazi ideology, and the substitution of normal, sane thinking will be an undertaking of gigantic proportions and of the utmost importance to the future of the world.

"I said good-bye to Constipation!"

"I've given up pills and harsh cathartics. I found my constipation was due to lack of 'bulk' in my diet—and I discovered that KELLOGG'S ALL-BRAN is a perfectly grand way to get at the cause, and help correct it!"

If this is your trouble, stop "dosing" with harsh purgatives—with their lack of lasting relief! Try eating a serving of Kellogg's All-Bran daily, with milk, or sprinkled over other cereals. Or, eat several ALL-BRAN muffins daily! Drink plenty of water.

Get KELLOGG'S ALL-BRAN at your grocer's today—in either of 2 convenient sizes. Made by Kellogg's in London, Canada.

Jet-Propelled Ship

Invented By Englishman And Is Now Actually In Existence

Close on the disclosure that a jet-propelled aircraft had been built came word that a jet-propelled ship is actually in existence, capable of making fair speed through water although without engines, propeller, rudder or funnels. It is the invention of P. H. Wild, an Englishman, whose brother, S. O. W. Wild, has renewed the patent on the invention in Britain. "My brother has carried out experiments with a ten-foot boat," said Mr. Wild. "It is propelled by jets of highly compressed products of combustion. He prefers to describe his method as 'jet-propulsion.' Jet propulsion fire ships have long been a subject of experiment and the Admiralty were responsible for some which were carried out nearly 50 years ago.

YOU WOMEN WHO SUFFER FROM HOT FLASHES

If you suffer from hot flashes, dizzy spells, irregular periods, are weak, nervous—due to the "middle-age" period in a woman's life, take Lydia E. Pinkham's Vegetable Compound. It helps thousands upon thousands of women to relieve these symptoms. Pinkham's Compound is also a fine stomach tonic! Worth trying! Made in Canada.

Price Control And Rationing Information

Q—I understand that the coupon value for most preserves has been changed. How much sugar may I now get for a preserve coupon?

A—No change was made in the coupon value for sugar. The amount of sugar obtainable for a preserve coupon remains at half a pound.

Q—I am thinking of buying a retail business and believe there is some regulation that must be observed in that connection. What is it?

A—You must apply to the nearest office of the Wartime Prices and Trade Board for a permit entitling you to enter the business in question. Please give complete particulars when making application.

Q—Is it possible to buy two preserve commodities on one coupon?

A—Yes. Any combination of rationed preserves may be purchased, providing the total value of the preserves does not exceed the total coupon value.

Q—I buy very little butter and use very few coupons. My grocer always tears out the unused coupons and keeps them. Should he do this?

A—No. You are required under rationing regulations to remove the unused coupons which are no longer valid and destroy them.

Q—My son celebrated his twelfth birthday yesterday. I would like to obtain his ration. Please advise as to how I can do this.

A—Sorry, you will not be able to get tea rations for your son until the new books are issued, about April 1st. . . as he did not become 12 years of age before September, 1943, he is not eligible for these coupons until the new book is issued.

Q—Is there no rule against storekeepers keeping foods under their counters for their best customers?

A—There is no such rule but the merchant who thinks ahead will not, we believe, adopt this practice too extensively. Instead, he will endeavor to make as equitable a distribution as possible of his goods amongst his customers.

Please send your questions or your request for the pamphlet—"Consumers' News" or the Blue Book (the book in which you keep track of your ceiling prices) mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

Has Greatly Increased

Number Of Canadians Filing Income Tax Returns Is Around 2,000,000

Before the war, income tax returns were required from about 300,000 Canadians; now the number is around 2,000,000. The work of income tax staffs is therefore nearly seven times as great, and one result is that on assessments are away in arrears. Those taxpayers are fortunate who know whether or not their returns for 1942 were correct, though filed a year ago, and thousands are said to be waiting to hear about 1941. It has been explained that even if the department were able to obtain qualified extra help it would prefer to level out the work to cover the entire year; but now another deluge of returns is at hand and the previous one is not cleared up.—Toronto Telegram.

Glass eyes were used by the Romans and Egyptians.

HEAD COLDS

Relief from Distress Comes This Way

More Vitamin C Per Grapefruit

As Mortimer Snerd says, "It looks as if Spring has sprung!" But in spite of that good news we all realize that it will be several weeks before our gardens start supplying our tables with any of those little, fresh, green things that are so full of vitamins. Meanwhile, the supply of vegetables on hand in the cellar is dwindling—and so is any Vitamin C that they may contain!

These next few weeks mark a Vitamin C danger-point for Canadians—for we are more likely now, than at any other time of the year, to suffer from a shortage of ascorbic acid.

So let us make it a point of honor with ourselves to see that our families have an orange or half a grapefruit every day, without fail. The citrus fruits are plentiful now and can be a very welcome help to the desert problem that always seems to face us at this time of year.

A word about grapefruit—the grapefruit we buy are still rather green, so bring these home, put them in a spot that is not too warm (but not in the refrigerator) and let them stand a week before you use them. They will be ripe, better in flavor, and the Vitamin C content will be higher. This means keeping a supply of grapefruit on hand ahead of time but you'll find that it's well worth the effort. Try it and see!

Wheat Syrup

New Process Developed In U.S. To Manufacture Syrup From Wheat

A process for manufacture of syrup from wheat has been perfected in United States and commercial production at the rate of 1,000,000 pounds per month "is already under way," Cecil Lammie, vice-president of Northwest Line Elevators Association, said at Winnipeg.

He said development of the wheat syrup was revealed at the recent United States farm chemurgic conference at St. Louis, Mo., from which he just returned. The conference was attended by leaders of agriculture, industry and science from United States, Canada, South America and China.

The process was developed at the United States government's northern research laboratory at Peoria, Ill., and the product now was being manufactured in a beet sugar plant. Its quality and taste equalled that of corn syrup.

With slight plant adjustment, Canadian sugar beet plants could produce upward of 600,000 pounds of wheat sugar annually, he said. There are two plants in Ontario, two in Alberta and one at Winnipeg.

C.W.A.C. ITEMS

Sergeant Agnes Little, daughter of Mr. and Mrs. T. Little, of Dauphin, Manitoba, has been promoted from the rank of corporal in the Canadian Women's Army Corps. Sergeant Little enlisted in June 1943. She is Orderly Room Sergeant at No. 38 Company CWAC in Ottawa.

Sergeant Kathleen Monaghan, formerly of Montreal has been promoted from the rank of corporal in the Canadian Women's Army Corps. Sergeant Monaghan enlisted in January 1943 and is employed in the Quartermaster's Stores at No. 40 Company CWAC in Ottawa. Her mother, Mrs. M. Monaghan resides in Beraghy, County Derry, Ireland.

Staff Sergeant Catherine Angus, daughter of Mr. W. M. Angus of St. John, N.B., has been promoted from the rank of Sergeant in the Canadian Women's Army Corps. She is employed by the Deputy Chief of the General Staff in Ottawa. Sgt. Angus enlisted in June 1942.

Corporal Daisy Trevelyan, daughter of Mr. and Mrs. T. Trevelyan of Creston, B.C., has been promoted from the rank of Lance Corporal in the Canadian Women's Army Corps. She is employed in the Directorate of Organization (Ottawa). Sgt. Trevelyan enlisted in July 1942.

Sergeant Hazel Neil, daughter of Mr. and Mrs. R. W. Neil of Vernon, B.C., has been promoted from the rank of corporal in the Canadian Women's Army Corps. She is employed in the office of the Judge Advocate General in Ottawa. Sgt. Neil enlisted in August 1943.

Nancy Carroll, famous Hollywood screen star, paid her first visit to a Canadian Women's Army Corps establishment when she was the guest of the sergeants at Cathedral Park barracks in Halifax recently. "I am impressed by the intencness of purpose of your Army girls," the auburn-haired actress said. "Everyone seems to know what she is doing and why. You are doing a splendid job." Miss Carroll visited the recreation room, the sick bay, kitchens, mess hall and the girls' sleeping quarters where she asked the girls about their Army life and drew many requests for autographs.

There are approximately 2,000 kinds of plants which yield fibres useful to man.

SMILE AWHILE

"Those people talked all the time you were playing. They couldn't hear a word of your music!"

"That's all right," replied the eminent performer. "My music prevented me from hearing their conversation."

"I give my husband plenty of fish; it feeds the brain if you've got a lot of thinking to do."

"I give nine plenty of food for thought, too."

Myrtle: "John's got his Home Guard uniform now, and he's dying for a parachute jumper to come along."

Phyllis: "Well, why don't you knit him one?"

Daughter (sighing)—John does not love me any more.

Mother—How do you know?

Daughter—When he brings me home at night now he always chooses the shortest way.

Motorist—How far to the next town?

Native—About three miles in a bee line.

Motorist—Well, how far is it if the bee has to walk and roll a flat tire along?

"Now, Bobby," said the teacher, "tell me where the elephant is found."

The boy hesitated for a moment, then his face lit up. "The elephant," he said, "is such a large animal it is scarcely ever lost."

Billy (to small boy)—Why run away? I thought you said you could lick me with one hand tied behind your back?

Small Boy—I'm just going home to get some string.

Cowboy—"What kind of a saddle do you want—one with or without a horn?"

Dude—"Without a horn, I guess. There doesn't seem to be much traffic on these prairies."

"Do you ever permit your husband to have his own way?"

"Oh, yes, occasionally. He is sure to make a fool of himself, and that makes him easier to manage next time."

Wife—A penny farthing for your thoughts, dear.

Husband—What is the farthing for?

Wife—Purchase tax.

Gardener—This, madam, is a tobacco plant.

Old Lady—How interesting! How long will it be before the cigars are ripe?

Grasshopper green is to be the fashionable color in wool this spring.

The very thing for jumpers.

YOUNG BELLINGER

Nolan Edwards, aka, is believed to be the youngest bellringer in Britain. Every Sunday morning he walks 2 1/2 miles to ring the bells of Shephard Parish church near Loughborough, Eng. His father and mother are bell-ringers. They instructed him when he was five.

Started In Early

Man 73 Has Been Working With Clocks For 58 Years

One of the few men in the nation still making old-fashioned grandfather's clocks is 73-year-old Bert F. Wood of Winchester, New Hampshire. Wood began making and repairing clocks when he was 15 years old and has been at it ever since. He makes the works first and then builds the cabinets. The wood for the cabinets comes from old pianos which Wood bought up at auctions and from second-hand dealers. It takes him about a month to complete one clock.

Here's Speedy Relief For Tender, Aching, Burning Feet

Your feet may be so swollen and inflamed that you think you can't go another step. Your shoes may feel as if they are cutting into the flesh. You feel sick all over with the pain and torture; you'd give anything to get relief.

Two or three applications of Moone's Emerald Oil and in a few minutes the pain and soreness disappear.

No matter how discouraged you have been, you have the relief you want when you have something to learn. Get a bottle today—at all drugstores.

Stiff Defence

Nazi Luftwaffe Ran Into Trouble In Sweeps Over Britain

After the Luftwaffe failed to crush London in the daylight Battle of Britain, it expected to smash the ground defences which consisted of the famous British three inch anti-aircraft guns. Instead, the Nazis came up against a secret British 3.7-inch anti-aircraft gun, firing a shell six pounds heavier and 12,000 feet further than the 88 millimeter German counterpart and with 2 1/2 times the accuracy of its predecessor—just one of the weapons which helped to defeat the German offensive in 1940.

PREPARATION OF BUDGET IS BIG JOB AWAITING RETURN OF FINANCE MINISTER ILSLEY

OTTAWA.—Finance Minister Ilesley's big job of the year—preparation of the budget—awaits him on his return from his health-seeking vacation in California.

When he gets back the experts of the finance department will have it well advanced but to Mr. Ilesley, as usual, will fall the task of piecing the budget proposals through the cabinet. It may reach the commons in late April or early May.

The budget is not expected to bring any relief from taxation. On the other hand, there is good reason to believe there will be no increases in income tax. If the tax experts find they can pick up a few extra dollars in some other field they will do so.

The country's war outlay in 1944-45, on the basis of estimates already before parliament, will be less than last year. The operations of mutual aid to other United Nations also will require less than last year, when \$1,000,000,000 was appropriated but not all spent.

On the overall picture, the budget probably will show reduced expenses and increased revenues with a consequent reduction in the deficit. In other words, Canada may be closer to the achievement of the policy of "pay as you go" for war expenses than in earlier years of the war.

However, the necessity for borrowing large sums will continue. The spring loan campaign—the sixth—will be in full swing or over the hump when Mr. Ilesley brings down the budget.

WORK TOGETHER

Practical Example Of Consultation Machinery Of Allies

LONDON.—Prime Minister Churchill told the House of Commons that Soviet Foreign Commissar Molotov's statement of Russia's purpose in carrying the war onto Rumanian soil "forms a particularly satisfactory example of the operation of consultation machinery between the Allies."

"The Soviet government was good enough to send the text beforehand," Mr. Churchill said. "We expressed our admiration for it . . . it certainly is likely to be a great help to the common war effort."

The prime minister said the machinery for such consultations was set up at the foreign secretary's conference in Moscow.

LOOKS TO CANADA

India Expects To Replace Japan's Pre-War Trade With Dominion

TORONTO.—M. R. Ahuja, India trade commissioner to Canada, told a board of trade club meeting here, India expects to replace Japan's pre-war trade with Canada in consumer goods, particularly in textiles, which industry he said was progressing rapidly in his native land.

He said India was planning a \$30,000,000,000, 15-year project after the war to double her agricultural output and increase her industrial production to five times its present level. In this period, India would seek from Canada large supplies of dairy machinery, agricultural implements, hydro-electric and mining machinery.

GOVERNMENT HAS DECIDED TO GREATLY INCREASE ALLOTMENTS OF FOOD TO OCCUPIED GREECE

OTTAWA.—Prime Minister MacKenzie King announced it has been decided to increase food allotments to Nazi-occupied Greece to 31,200 tons monthly—an increase of 11,000 tons—and to add 2,000 tons of sugar for this year.

Shipments during January and February were 20,200 tons a month plus 2,000 tons of rice. The increase will be made up of an additional 9,000 tons of wheat and another 2,000 tons of pulse.

Mr. King said the Swedish government has offered to make three additional ships available to carry the additional supplies. The present fleet numbers 10 ships under charter to the Swedish Red Cross.

The increased allotment, made in response to a request from the neutral relief commission in Greece, will boost the total monthly allocation to 24,000 tons of wheat, 4,700 tons of pulse, 1,000 tons of fish, 600 tons of canned milk, 300 tons of soup,

CHANGE IN RULING

Hog Premiums Will Now Be Paid By Government Warrant

OTTAWA.—The agriculture department announced that beginning April 10 Dominion government hog premiums of \$3 on each grade A carcass and \$2 on each B1 grade carcass would be paid by government warrant attached to the grading certificate.

Since Jan. 24 last, when these premiums were inaugurated to encourage the channelling of good bacon hogs through inspected abattoirs so they would be available for export to Britain, the premiums have been paid by the packers along with the regular settlement for the hogs. The departmental announcement said this arrangement was temporary pending working out of a plan whereby the premiums could be paid direct to producers.

The department said a new combination form in three sections has been printed.

The document will reach the hog producer through the same channel now followed by the grade certificate. The warrant is to be detached and taken to any bank, where it will be cashed at par.

The producer retains the remaining portion of the form as his record of the grade and settlement.

The agriculture department also announced a modification of the schedule of official grades for hog carcasses to reduce the number of classes in the C, D and E qualities. The announcement said these changes, effective April 10, result from a "considerable" demand by producers and their representatives that the number of grades be reduced.

ADMIT ATTACK

But Nazis Make Light Of Damage To Warship Tirpitz

NEW YORK.—The Nazi agency D.N.B. acknowledged the German battleship Tirpitz had been attacked recently by aircraft at a northern Norwegian base, but claimed "the attack was dispersed by our defence and did not attain full effect."

The German broadcast followed a British admiralty announcement that several bombs had hit the warship.

"The enemy suffered considerable losses in destroyers" during a convoy operation incidental to the attack, said D.N.B.

TRICKED BY NATIVE

ADMIRALTY ISLANDS.—Eight Japanese prisoners were taken by a native who took a dugout canoe to a small island they garrisoned. He told them he had orders to move them to another island. They piled into the canoe and the native started to sea. An American patrol boat came along and took the Japanese prisoners.

APPLE SYRUP

OTTAWA.—Canada has been manufacturing apple syrup on a commercial basis for the past two years and it is being used in the baking industry and as a glycerine substitute in the tobacco industry, a federal agricultural department spokesman said.

MONEY IN ADVANCE

LONDON.—Large sums of money were printed on notes of two shillings, sixpence (60 cents) and five shillings early in the war and dispersed through the country in case the mint was destroyed or communication between London and the provinces disrupted. It has been disclosed. It is unlikely they will ever be used now.

300 tons of vegetable stew mix and 300 tons of high-protein spaghetti plus 2,000 tons of rice and 2,000 tons of sugar for the year.

The additional wheat up to 9,000 tons monthly will be provided initially as a gift from the Argentine government. The additional foodstuffs will be supplied by the United States government as lend-lease to the Greek government.

2563

WAR SUPPLIES

Surplus Stocks May Be Released For Civilian Use

OTTAWA.—It was reliably learned here that the War Assets Corporation—a crown company dealing with re-allocation and disposition of surplus war supplies—had asked the three armed services to dig through their stores in search of articles such as rubbers, shoes and underwear which are in short civilian supply.

The corporation was reported to have asked them especially for any spare rubbers to relieve heavy civilian demand.

One report said the services had been asked to provide 50,000 surplus pairs of suspenders for civilian release. Of this number, 28,000 pairs would be turned back to manufacturers to be reprocessed into about twice as many narrow type and half elastic suspenders.

GOVERNMENTS OF BRITAIN AND THE UNITED STATES AGREE ON INTERNATIONAL CONTROL IN AIR

NEW CAP BADGE

OTTAWA.—A new army cap badge will be seen on Canadian streets soon. It is the badge of the Canadian Technical Training Corps, youngsters who enter the army technical schools at 17 and go into the active army at 19 as skilled tradesmen and technicians.

MADRID.—Diplomatic reports from Budapest said that Admiral Nicholas Horthy, regent of Hungary, is held prisoner in his Budapest palace guarded by Hungarian Nazis commanded by Nazi Gestapo agents.

LONDON.—Concluding a four-day discussion of post-war civil aviation, representatives of Britain and the United States announced the two governments had "agreed that international control should govern a considerable field of technical matters."

The meetings were attended by Adolf A. Berle, assistant United States secretary of state; Dr. Edward Warner, vice chairman of the U.S. civil aeronautics board, and Lord Beaverbrook, lord privy seal, as well as technical advisers. They produced enough agreement to "justify the expectation that final dispositions can be reached at an international conference," a statement concerning the meetings said.

"They (the delegates) have in mind that the government of the Soviet Union and other governments would likewise enter into conversations prior to such an international conference," the announcement added.

While the meetings were in progress here Russian representatives met in Washington with Joseph C. Grew, special assistant to the secretary of state and other officials for talks of similar scope affecting nations which operated international air services before the war and are planning to pick up again.

The first talks on the international aspects of civilian aviation began last October when representatives of the dominions and India met Lord Beaverbrook and other British representatives in a London conference at which unanimous decisions were reached.

Although Canada and other portions of the Empire were not represented at the Berle-Beaverbrook conferences, Canada was kept fully informed of developments.

Defence Minister Ralston Grooms V.C. Winner

—Canadian Army photo.

The pride felt by all Canadians in Major Paul Triquet, hero of the battle of Ortona and winner of the Victoria Cross for his gallant action, is expressed by Defence Minister Ralston, while Mrs. Triquet looks happily on. Major Triquet returned to Canada recently and is expected to remain here some time on leave. He came by Ferry Command transport from Britain.

A German Shell Missed Him By Inches

—R.C.A.F. Photo.

Smashing through the perspex of the mid-upper turret, a shell from a German night fighter narrowly missed Pilot Officer Murray Stewart of St. Walburg, Saskatchewan. The heavy bomber, of the Lesande Squadron, had just finished dumping its load of bombs on Brunswick when it was attacked by an enemy fighter. Shells smashed its port radiator and holed the port turret. The Nazi aircraft did not escape scot free, however; Lieutenant Al Rorke of Powell River, B.C., tail-gunner, raked it from end to end. Squadron Leader W. W. Strachan of Trail, B.C., then skippered the Canadian bomber back to its base.

Subaltern Mary Churchill Wears Her C.W.A.C. Uniform

—Canadian Army Overseas Photo.

Looking pleased as punch, charming Subaltern Mary Churchill, daughter of Prime Minister Winston Churchill, is shown above wearing the Canadian Women's Army Corps uniform which was presented to her in Britain recently. At left, Miss Churchill, who is a Subaltern in Britain's Auxiliary Territorial Service, tries on the tap. On the right, she models the smart C.W.A.C. Summer outfit before a warm fireplace "Somewhere in England."

New Method Is Developed To Beat U-Boats

LONDON.—When Captain F. J. Walker, D.S.O., brought his second escort group of sloops into port after killing six submarines, it was a great day for the navy and also proof of the merit in newly-developed tactics, which beat the dangerous pack-hunting technique of the Nazis.

The answer—anti-submarine packs of sloops to hunt packs of submarines.

But not so very long ago the ships were not there to constitute such special escort groups as that commanded by Capt. Walker, who took his ships out on a 20-day patrol and came back with five of his six ships and a bag of six U-boats.

On many occasions, it was a case of providing convoys with just as many—or few—escort ships available at the place of origin. Sometimes it was a case of few and then it developed that guarding ships must remain ever close to their charges.

Surfaced U-boats could sometimes lure corvettes away and then dash in for an attack on the merchant vessels.

Gradually more destroyers and sloops and corvettes and the arrival of the frigates, some of them made in Canada, gave the navy the scope it wanted. The "killer" groups were formed and went after the submarine "packs".

Capt. Walker's great sortie was one of the results of this policy. Because of the number of ships available he was in a position to detail sloops to hunt one U-boat for as long as nine hours.

DEFENDS PROJECTS

Northern Military Installations Have Discharged Function Says General Foster

VANCOUVER.—Maj.-Gen. W. W. Foster, Canadian commissioner of northwest defence projects, told the Vancouver board of trade that northern military installations which enabled Canada and the United States to thwart the Japanese drive towards Alaska may figure in a counter-move against the Japanese.

The Alaska highway, the Canol oil project and the northwest staging route have "amply discharged their function," Gen. Foster said.

"It is of course obvious to all that the northwest corridor will always be the main air line communication between the continents of America and Asia," he added.

"COMBINED OPERATIONS INCLUDE YOU"

● Invasion demands more action from every fighting service . . . combined operations. Combined operations include you, too.

Despite the shortage of help and equipment, Canadian farmers have responded nobly to demands for increased production of foods.

But there is one thing on which a better job can still be done.

MORE MONEY is needed to fight a more intensive war.

All Canadians will be asked to furnish this money. It's a duty that we who are at home owe to the men on the fighting fronts.

In these days most farmers have higher incomes . . . money to save. And that is the job that they are asked to do . . . save money and lend it to Canada.

You are not asked to give money . . . just to lend it. When the war is over you'll have this money to "plough back" into your farm. So save now to lend to your country. Save to have money to improve your farm; money for new stock and implements; money for more land or new buildings . . . for a new car . . . for new furnishings and conveniences for your home.

All you can lend is little enough for a cause so vital for a need so urgent. And the more that you can save and lend to your country now, the more you will have for your own use when the war ends.

Blairmore Curlers Held Banquet

Coleman and Bellevue Delegates In Attendance; Much Interest Shown in Coleman's Building Plans

Blairmore curlers held their annual banquet last Thursday evening to wind up the season's activities. President A. Dow and Secretary A. Balloch of Coleman represented the local club. Bill Kerr and Jim Fisher were present from Bellevue.

Following the serving of refreshments the 52 curlers present sat down to a turkey supper with all the trimmings, served up by the Greenhill Grill staff. President T. Muldren presided over the program and called upon the visitors as well as numerous Blairmore curlers for a few words pertaining to their impressions of the curling season just past.

A number were quite enthused that Coleman Curling club was taking a new lease on life. Both Mr. Kerr and Lance Morgan stated that curling in the Crows Nest Pass was due for a boost once Coleman secured its new cutting arena. Mr. Morgan stated it was his opinion that Coleman formed the backbone of curling in the Pass and that the Coleman Club sent more men to the district bonspiels than any other club.

Mr. A. Dow assured the Blairmore and Bellevue clubs that Coleman would have new quarters for next season and A. Balloch extended a welcome to both clubs to visit Coleman many times for friendly games. In reply Harry Carmichael, aided and abetted by Lance Morgan, challenged Coleman for the Burns' cup, the challenge being duly accepted. The Burns' cup games will be played early next season.

Harry Boulton, a member of the Blairmore club for the past three winters, was called upon for a few words. In his address Harry bade the Blairmore club good-bye as a member, voicing his intention of once again playing with the home club and thanking the Blairmore curlers for their courtesy in letting him be a member and their friendliness and good sportsmanship towards him during the past three years.

Montreal Star: In days of yore if anyone missed a stagecoach he was content to wait two or three days for the next one. Now he gets out a squawk if he misses one section of a revolving door.

MRS. H. HOUGHTON'S FATHER DIED

Mrs. Harold Houghton received word this week of the death of her father, Mr. John Smith, 76, at his home in Kent, England, on February 27.

ARRIVES OVERSEAS

Mr. and Mrs. George Derbyshire have received word from their son Ellis of his safe arrival overseas.

ANNOUNCEMENT

Mr. and Mrs. Pete Rizzo, of Coleman, wish to announce the engagement of their only daughter, Rita, to Mr. Harold McCabe, of Butte, Alberta.

LOCAL NEWS

Mr. and Mrs. John Smith of Corbin, were the weekend guests of Mr. and Mrs. Sam Smith.

Rita Ash spent the Easter holidays the guest of her sister, Miss Edith Ash, of Calgary.

Mr. J. Hannerhan and daughter, Miss Theresa, spent the Easter holidays with Mr. and Mrs. Sam Smith.

Mr. and Mrs. Wheatcroft, accompanied by Mr. and Mrs. Harry Dunlop and Miss Helen Dibble, motored to Calgary at the week-end.

Mr. Jack Robinson, of Calgary, was the weekend guest of Mr. and Mrs. A. Beveridge. Mrs. Robinson, who had been visiting her parents, returned to Calgary with her husband.

Miss Mildred Higginbotham spent the Easter holidays the guests of her sister, Mrs. Henry Dixon, of Calgary. She was accompanied home by Mrs. Dixon who is now the guest of her parents, Mr. and Mrs. Tom Higginbotham.

WEDDINGS

TUCHAR-PALMARCHUK

The United church at Medicine Hat was the scene of a pretty wedding on Easter Sunday at 12:30 when Clara Palmarchuk, of Coleman, became the bride of Charles Tuchar, of Medicine Hat. The bride looked lovely in a gown of white sheer and long bridal veil held together by a wreath of roses. She carried a bouquet of carnations.

Attending the bride were Anna Schmitt, who chose a blue sheer gown, and Mary Vesko, of Medicine Hat, who chose a pink sheer dress. They each wore flowered wreaths in their hair and carried bouquets of snapdragons.

Attending the groom were F.O. Leo Swetion, of Medicine Hat, and Cpl. Henry Pyypow, cousin of the bride.

The Matron of Honor was Mrs. D. Vesko.

A reception was held at the home of Mr. and Mrs. D. Vesko where only immediate relatives and friends were present.

The happy couple will reside at Bellevue where the groom is employed.

The Churches

ST. ALBAN'S CHURCH
Rev. J. R. Hague, A.Th., Incumbent.

2 p.m., Sunday school.
7 p.m., evensong and sermon.

ST. PAUL'S UNITED CHURCH
(G. A. Ketyls, Pastor)

Morning worship at 11 a.m.
Sunday school at 12:15
Evening Worship at 7 p.m.

The anniversary services of St. Paul's United church, will be held on Sunday, April 23. Rev. Dr. Thomas Hart, Superintendent of Missions for northern Alberta, will be the guest speaker at morning and evening services of this anniversary occasion. Dr. Hart will deliver his popular lecture, "Hints from the Highway", Monday evening, April 24.

Worshippers who gathered at St. Paul's for the Easter services were deeply impressed by

the service of song, given by the choir under Director James Cousins. The congregations were further delighted on this occasion by the brighter and more cheerful interior of our place of worship which is the result of the re-decoration by Lal Snowden.

The baptism of Norman Alan Edgar, infant son of Mr. and Mrs. Norman Ash, of Coleman, was solemnized at St. Paul's on Easter Sunday.

Carol Anne Jeanette, infant daughter of Mr. and Mrs. John Nelson, of Coleman, was baptized in St. Paul's United church on Easter Sunday. Sponsors were Anne and Wilbert Raymond.

THE SALVATION ARMY HOME LEAGUE Guarding The Home Front

We are thinking of the wives and the mothers of men and women in the Service, and are planning for them an evening of fellowship once a month.

At this gathering special prayer will be offered on behalf of all names inscribed in our Salvation Army Book of Remembrance.

If you would like to have the name of your loved one placed in this Book please fill in this form and send it to The Salvation Army, Coleman, Alberta.

All those interested are asked to attend these special meetings every first Tuesday of the month at 7.30 p.m.

ADDRESSES ON THE MOVE... IN SPITE OF ALL WAR HAZARDS 31,500,000 LETTERS REACHED YOUR MEN OVERSEAS LAST YEAR

DO you remember the "Change of Address" form which you filled out when you moved your civilian home? After that was filed at your local Post Office, every letter sent to your old address had to be redirected to the new one, and that went on until your correspondents were familiar with your new location.

Probably you didn't move very often, but each time you did, the Post Office gave redirectory service. And if you will think about that for a moment, you will begin to see what a stupendous task confronts the Canadian Postal Corps in handling the military mails, when thousands of men are being moved almost daily!

Yet, in spite of the need of tracing men from reinforcement units to their locations on fighting fronts . . . in spite of the need of tracing them through hospitalization . . . or while on leave . . . when their unit is moved . . . in spite of delays in air mail service caused by adverse flying conditions . . . of delays in surface transportation caused by enemy action . . .

in spite of every war hazard you can think of . . . your Post Office and the Canadian Postal Corps delivered 31,500,000 letters to men overseas in 1943!

It is inevitable that, in tracing men who have been moved, or wounded, some delays occur. It is inevitable that enemy action holds up delivery in some cases. But everything that human ingenuity and effort can do to give you a service that means speedier delivery of the letters your men are waiting for, is being well and thoroughly done, and will be done. New methods of speeding mail deliveries are being put into effect, new possibilities are being studied. Think of your own friends who have been posted to new locations overseas, and realize the task of tracing them when their mail arrives at their former address!

You can help your Post Office and the Canadian Postal Corps to give even better service if you will take a moment to make sure that your mail is correctly prepared. Do these simple things . . .

1. Always be sure each letter or parcel (properly packed) is fully and correctly addressed.
2. Use light-weight paper for regular Air Mail, or use the Armed Forces Air Letter Form. Airgraph letters take a little longer because they must be processed in Canada and overseas.
3. To men in hospital, mark your letter "In Hospital", if you are advised to this effect.
4. Never put into parcels perishable food, or any substance that can be damaged by extremes of temperature.

THERE ARE MORE GOOD REASONS FOR BUYING WAR BONDS THAN FOR BUYING ANY SINGLE THING EVER OFFERED TO THE CANADIAN PEOPLE

EVERYONE of us wants to win this war—to see peace restored—to have jobs to get back to when the war is won.

MILLIONS of us, already in the Armed Services have dedicated time, effort, lives if need be, to the Nation.

The rest of us have not been called to arms. Our big chance to get into the fight is to buy the Sixth War Loan to the absolute limit.

This is the People's Loan, and we, the People, will not fail—

We will not fail to buy Bonds—and keep them.
We will not fail to buy Bonds—and so help to keep Canada the kind of land they want to see when they come home.

REMEMBER—We are lending not spending.
The money we lend is still ours to use in the years ahead when we need it most.

Buy for PATRIOTISM—Hold for SECURITY

SUNDAY SCHOOL LESSON

APRIL 16

SAUL'S EARLY PREACHING

Golden text: I am not ashamed of the gospel: for it is the power of God unto salvation to every one that believeth. Romans 1:16.
Lesson: Acts 9:19-30; 11:19-26.
Devotional reading: 1 Timothy 6:11-16.

Explanations and Comments

Paul Preaching at Damascus, Acts 9:19-20. Two weeks ago we left Paul in Damascus a changed man. The vision of Christ on the way there had changed the rabid Pharisee, the hated persecutor of Christians, into a contrite follower of Christ. In the first chapter of his letter to the Galatians, Paul refers to the story in Arabia about which Luke makes no mention: "When it was the good pleasure of God to reveal his Son in me, that I might preach him among the Gentiles, straightway I conferred not with flesh and blood, neither went I up to Jerusalem to them that were apostles before me; but I went away into Arabia, and again I returned into Damascus. Then after 3 years I went up to Jerusalem. It is thought that by Arabia he meant, not the Arabian Peninsula, but the country of the Nabateans in the region of Damascus. Here in solitude Paul thought over his vision and all that it implied for him and his future work, even as Jesus at the beginning of his ministry had gone into the wilderness to meditate on his mission.

On returning to Damascus Paul straightway boldly proclaimed in the synagogues that Jesus is the Son of God. The Jews who heard him were amazed, recalling among themselves how he had come to Damascus with the avowed purpose of arresting the believers in Jesus. Paul grew steadily in Christian experience and ability to preach, and was constantly "proving that this is the Christ."

The Jews sought to apprehend him. Paul tells briefly what happened in his second letter to the Corinthians (2 Cor. 11:32, 33): "In Damascus the governor under Aretas the king guarded the city of the Damascus Jews in order to take me; and through a window was I let down in a basket by the wall, and escaped his hands." He was smuggled out of the city by night, as if a criminal fleeing from justice.

Paul Preaching at Jerusalem, Acts 9:28-30. Paul entered Jerusalem, not "breathing threatening and slaughter against the disciples," but breathing Christian fellowship and good will for them. When he tried to join them, they were skeptical of his discipleship and were afraid of him. Paul found his past was against him. "Paul had come to visit Cephas" (Gal. 1:18). He had not come to be inducted into the apostolic office. That authority he had received from the Lord Jesus, not from man (Gal. 1:1). But Paul wished to carry on his little ministry in harmony with the apostles, and there was much that he could learn about the earthly life of Jesus from Simon Peter during those two weeks. But the disciples were afraid of him. The weak ones threw off the sheep's clothing and again raven the fold." (A. T. Robertson).

But Barnabas, "that good man" (Acts 11:24) came to his rescue. He took Paul by the hand, presented him to the apostles, and guaranteed the reality of his commission and the worth of his work in Damascus. Barnabas succeeded in setting the fears of the disciples at rest, and they admitted Paul to intimate and full fellowship.

CANNOT GET OFF

Two Kingston lads hopped on an open freight car for a free ride and couldn't get off again until the train stopped at Belleville, Ont., 60 miles away. Something like that happened to Hitler when he hopped on his war chariot.

2-INCH MORTAR

Chief Sitting Bull would have had his own name for it: probably "Small stove-pipe go boom! Make much smoke." But the Old Chief wouldn't have sat long in the vicinity of bursting 2-inch mortar bombs.

Primarily a smoke-producing weapon for screening movement, and unexcelled in that role, it is also a regular little Jack the Giant-Killer when it comes to lobbing high explosives into inaccessible enemy positions. It doesn't pack enough authority to be useful against armour-plate, pill boxes or even buildings, but in an anti-personnel role it's a mean little devil capable of seeking out the enemy in his hidden positions and making life very, very miserable.

Every infantryman is a 2-inch mortar man, so that no matter what happens there's always someone handy who can put the weapon into action.

A That's the Infantry! The versatile lads with brains and fighting hearts!

Needed For Experiment

Frog Famine In Britain Is Hampering Work of Scientists

There is a frog famine in Britain, and newspaper advertisements are offering as little as a dozen for live specimens. They are wanted, not for food, but for experimental purposes by scientific institutions, universities and schools. They have been scarce since the war. In 1941, 2,000 live frogs were flown here from the U.S. in a bomber, in specially built water tanks.

BATTLE OF BRITAIN

A sentence in a speech by Flight Lieut. Telling, in the recent foreign affairs debate in the House of Commons, provokes fruitful reflection: "People do not realize that only 700 people took part in the Battle of Britain, which was as important in many ways as Trafalgar and Waterloo."—London Spectator.

The first diadems, worn by the ancients instead of crowns, were made of silk or wool and set with precious stones.

TOPICS
OF
VITAL
INTEREST

SAFE MILK SUPPLY NEEDED

Individuals who agitate against pasteurization of milk and milk products are not serving the best interests of their fellow countrymen," the Health League of Canada said. The League reaffirmed its determination to achieve national compulsory pasteurization.

"Those individuals who, chiefly by letters to newspapers, attack the advisability of pasteurization are either ignorant of the facts or are prompted by other motives," The Health League declared. "The public should realize that these persons are setting up their unsupported opinions against the universal findings of the medical profession and associated scientific workers."

"Milk is a wholesome, beneficial food, if proper precautions are taken. In its raw state it is a menace to health and life," the League said. "It is doubtful if in all the wars in human history as many people have been killed, as there have been by drinking unpasteurized milk."

"Weeding out of dairy herds those animals which suffer from tuberculosis, Bang's disease, and other communicable diseases, is a necessary step, but this alone will not assure a safe milk supply," it was stated. Milk has frequently been found to have been contaminated by human handlers.

"Those who oppose pasteurization should be prepared to accept some responsibility for the harvest of lives and sickness taken annually in Canada by such milk-borne diseases as bovine tuberculosis, undulant fever, typhoid and paratyphoid fevers, septic sore throat, diphtheria and scarlet fever."

For Safe Flying

Science Solves Many Stratosphere Problems At Home

How high can men and machines fly? How cold is cold? How much cold can man or machine stand? At what height does man faint from lack of oxygen?

These and many other problems are being solved these days in a decompression chamber somewhere in Canada where scientists, in co-operation with the Royal Canadian Air Force, duplicate the atmosphere six miles above the earth.

Out of these experiments in a temperature 70 degrees below zero have come new and finer flying suits, goggles which don't frost over, fool proof oxygen masks, hearing devices which make words plain and intelligible over the roar of four motors, and several secret devices for safe flying. Science in the first instance, then the skill of Canadian workmen, stand back of every pilot or bombardier or navigator as he starts on his increasing offensive sweeps over enemy strongholds.

As science checks and double checks the lessons that the fliers learn, orders go to plants for changes in construction or design or method. Everything about war is changing and few more striking examples are to be found anywhere than in the ever growing aircraft industry of Canada.

SPITFIRE HAS NEW ENGINE

The Spitfire fighter plane has a new engine, the Rolls-Royce Griffon, which has a 23% greater capacity than its predecessor, the Rolls-Royce Merlin. The Griffon has a two-speed, mechanically-driven "supercharger" and performs equally as well at low levels as at a height of 25,000 feet, the height at which most air battles take place.

Muscular tension is believed to be one of the major causes of light sleeping.

Canada's War Effort

Receives High Praise In Article In Russian Newspaper

Dana L. Wilgress, Canadian Ambassador to Soviet Russia, was host at a dinner in Moscow to Russia's new Ambassador to Canada, George Zarubin, and Mrs. Zarubin.

Ilya Lapsky has written a long article in Red Star, entitled "Canada," giving details of the Dominion's contribution to the war in materials and manpower. It cited the participation of the Canadian Navy in sea warfare and related Canada's war effort in praiseworthy fashion.

Canada is enjoying a period of warm friendship on the part of the Soviets.

Wheat acreage in the United Kingdom has been doubled since the war began.

Tribute To Churchill

The World Needs This Man In The Anxious Times Ahead

Mr. Churchill might have added that he will be 70 years old before this year of 1944—a year filled with great portents for the Allied cause—is over; and even so vigorous a person as he is not looking to new political preferment at that age. But let there be no mistake about this: Britain and the United States and the world need this man in the anxious times ahead. He personifies the valor and the strength and the faith which held back the Nazi tide in modern civilization's blackest hour.—Buffalo Courier-Express.

Spanish explorers in 1508 introduced American timber to Europe, believing it would cure many serious diseases of mankind.

GARDEN NOTES

Buying Plants

For quick results, the use of started or bedding plants will help. These may be secured from the nearest seed firm or florist or professional gardener. They are plants from seed sown indoors, usually in a hot-bed or greenhouse, and are well grown when set outdoors as soon as danger from frost is over. They now come in a great variety of both flowers and vegetables.

Only by the use of certain started plants is it possible to get early and vegetable maturity in some parts of Canada. Petunias, for instance, would hardly reach blooming stage in most parts of Canada if sown from seed outdoors. The same is true of tomatoes, and possibly of cabbage and other things. In transplanting these from the flats or baskets in which we buy them, one should water well, and if the sun is hot it is a good thing to provide a little shade for a day or two. Also, if these plants are in flower or are very tall, it is advisable to snip off flowers and pinch back main stems to encourage stocky growth.

Speed Up Hints

There are various little ways the experienced gardener uses to hasten things along. With tiny seeds like those of lettuce, onions, etc., sowing will be more economical and need less arduous thinning if the fine seed is mixed with a little sand and the mixture spread thinly along the rows. Allow potatoes to sprout in a sunny, warm room for a week or two and see that sprouts are broken off in planting. Soak the seeds of beans, peas, beets, corn, etc., before planting. For tender and crisp vegetables growth must be kept speeded. If because of neglect, drought, or any other reason growth is allowed to halt for a few days then tough, woody fibre results and both flavor and texture are impaired.

Professional gardeners get quick, tender growth by pushing things along. They use a good deal of fertilizer, cuttings at least once a week, and more often in dry weather, and they give their vegetables plenty of room for development. This means such things as carrots, radish and beets, etc., are thinned from two to four inches apart, and when this space is filled one can start harvesting every other plant, leaving the rest for further development.

Another way the professionals ensure tenderness is to have their vegetables coming along in succession. They would not think of planting all their carrots, beets, beans or anything else at the same time. They spread sowings over several weeks. In most parts of Canada one can go on planting carrots, beets, beans and other things right up to the middle of July, thus ensuring a continuous supply of the highest quality young vegetables, until frost.

Muskat Crop

Thousands Of Trappers Are Engaged In A Lucrative Business

All winter long our streams and marshes have lain silent and still under the grip of ice and snow. But with the approach of spring these quiet places are becoming the scene of intense activity. Thousands of trappers are beginning the spring harvest of Canada's \$2,500,000 muskrat crop.

Clad in warm clothes and hip boots, the hardy trapper braves the raw winds and cold waters in the early morning to discover what Lady Luck has brought to his trap-line. This is the first step in a chain of events which will result in warm and beautiful coats for my lady of fashion.

The fur of the muskrat is soft and durable and the furrier presents it to the public in many pleasing forms. It is used extensively in its natural, undyed state. One of the most popular processed forms is known as Hudson Seal. A special exhibit at the Royal Ontario Museum shows the various steps by which the long-haired, brown pelt of the muskrat is converted into short-haired, glossy black Hudson Seal. Muskrat is also processed to resemble other furs such as mink, or fur-seal. However, the problems of processing and fashioning are for the furrier. They do not concern the busy trapper as he harvests his spring crop, racing, not as the farmer does against the advent of frost and snow, but against the approach of warm weather which renders the pelt of the muskrat unprime and commercially inferior.

Britain Supplies Maps

Royal Engineers Responsible For Production For The Armed Forces

Britain has, for years, been a producer of first-class maps, and has been able to apply a great amount of expert experience to keep the British Army supplied—and not only the British Army, but the American Forces. Under Mutual Aid Lend-Lease, Britain supplies all maps used by the United States Army and the U.S.A.F. in Britain or based on Britain, and most of the maps used by the United States forces in the Mediterranean theatre. The responsibility for map production and supply rests with the Royal Engineers, which has developed a wide-spread organization of highly-trained experts to do the job. One of the main jobs of Royal Engineers Survey in the field is to supply, at short notice, accurate maps of any locality, and to provide them where, when and in the quantity needed. Every unit is equipped with a truck in which a complete photolith and rotary printing outfit is contained. The press prints in color at the rate of 4,500 copies per hour. At one point during the North African campaign, the Royal Engineers' mobile press worked 22 hours a day, every day for six weeks without a break.—ST. Thomas Times-Journal.

Ran His Own Special

Naval Officer Borrowed A Train From Stationmaster In Sicily

They tell a story now about a naval officer who landed with invasion troops at Licata on the southern coast of Sicily and had to go to Syracuse 200 miles away. All railway traffic had stopped because the line ran too close to the fighting front. So the officer borrowed a train from the local stationmaster and ran his own "special". The officer was Lieut. G. S. Ritchie, D.S.O., Royal Navy, of Aberdeen. He had several ratings with him and some gear so, he said, "to go by train was the simplest way."

Tough On Japs

In India the "Mosquito fighter and reconnaissance bomber is being used over the Burmese rivers against the Japanese barges and other small craft and the result has been deadly. The mortality rate amongst these, already high, has been stepped up still further by this swift twin-engine monoplane.

The Oxford Committee for Famine Relief recently sent the Greek Red Cross \$14,000, most of which was used to buy cod liver oil for the suffering children in Greece.

OUR COMPLETE SHORT STORY—

Horseshoe--And Clover Leaves

By HELEN PARTCH

McClure Newspaper Syndicate

There was nothing in the day to cause apprehension—blue sky, tiny high cloud puffs, and air like wine. But Lola gripped the car as it slid to a stop by the airport, and her eyes sought Benny's anxiously. "You won't be long?"

"About an hour. Sure you won't come along?"

"I can't."

"Your mother had no right to make you promise. Everyone flies."

"I know. She'll feel better about it after a while."

"I hope so." Benny squeezed Lola's hand and hopped out of the car. "But you're going up with me soon. Can't have my wife grounded."

Lola flushed. Wife. Yes, she would be Benny's wife in a few weeks now. The thought brought color to her cheeks and a catch in her breath. She said above the catch, "We—we couldn't drive over to Carlton Field, could we?"

"Worried? You couldn't be worried." Benny's eyes were incredulous.

"N-o."

Benny glanced hastily around, leaned into the car and kissed her. "Who cares?" he said, his own breath a little short. "Let 'em care!"

Lola watched him jump the fence and stride across the field. A plane was just taking off—a blue and silver plane—it occupants a boy and a girl in a red jacket. Lola had seen them climb into the cabin. The girl was laughing. Everyone took a plane in his stride. Everyone who could. There were four privately owned planes on the field in front of Lola now. Not Benny's. He would bring his from the hangar.

But he didn't. He came out and trotted back across the field. "Something's gone wrong," he said. "Pete found it when he fueled the bus and started to bring her out. They're working on her now. But I've got to make Carlton Field in fifteen minutes to meet Major Donley. Carl's taking me."

"Oh, Benny, I knew it!"

"Knew what? It's just a minor matter. Anyway, I'm going with Carl. What's eating you, baby?"

"I don't know." Lola twisted her hands together. She didn't know. Except that she was acting silly. "Couldn't we drive over?"

"Twenty miles in fifteen minutes? Listen, sweetheart—"

Lola leaned forward. She had noticed something. A little gold pin on the lapel of Benny's coat was dangling. "Your pin! Benny, you didn't fasten the safety!"

"Thought I did." Benny lifted a hand to the pin. Behind him the field Carl's gangling figure was climbing into the cabin of his plane. Benny said, "Got to be going, sweetheart."

Lola called after him, "Don't lose the pin, Benny." She tried to fix her mind on it, a tiny horseshoe and two four-leaf clovers. Tried to remember the day she had given it to Benny, fastening it to his coat with fingers that shook a little because his face was so close, and because he had just kissed her, his lips warm and eager on her own.

She heard the engine of Carl's plane sputter, stall, catch. She watched the plane wobble across the field, gain speed, rise—slowly, slowly—and take to the air. She thought, "I'm a crazy fool. There is nothing to worry about. Everyone is careful. Benny's saluted me."

She turned on the car radio. "Fools rush in . . . Open your heart

and let this fool rush in." She shut it off.

The blue and silver plane had come back. The boy got out, and the girl with the red jacket. She was still laughing. She stooped and picked up something. She held it in her hand as she came towards the car. She said to the boy, "Cute little thing. I wonder whose it is?"

Benny's pin! Yes, it lay in the girl's hand, a little horseshoe and two four-leaf clovers. Lola called apologetically, "I guess that's my pin. At least—"

"Oh!" The girl came over and gave it to her. "Glad I found it." Lola fastened it on her coat. She looked at the clock. Only twenty minutes! She turned on the radio again, then shut it off. What on earth was the matter with her?

Less than an hour had passed when she heard Carl's motor. It was skipping badly. The engine died, then caught and held with all cylinders firing freely. Lola would know that black plane with the silver wings anywhere. She shielded her eyes and watched it. How silly she had been. How silly!

And then it happened. One minute the plane was in the air. The next it hurtled towards the ground. It crashed nose down, far out on the field, and turned over on its side.

Someone screamed. Spectators ran in every direction. Lola ran with them. She was who had screamed. The sound echoed in her ears, and the sickening crash of the plane. They pulled someone from the cabin. A single man. The plane burst into flames. Lola went down. Right there in the middle of the field.

When she came to, Carl was with her. He was calling her name distractedly. "I'm all right, Lola. And Benny is back at Carlton Field."

"At Carlton Field. . ."

"Yes. He lost a leg or something, and wanted to look for it. He sent me back to tell you to pick him up in the car. He was afraid you would worry if we were away too long."

Lola's eyes slipped to the burning plane. It was all too apparent what might have happened to the man penned in on the lower side. Her hand slipped to the pin on her shoulder. It rested against her palm—a tiny gold horseshoe, and two four-leaf clovers.

Canada's Food Rules

The Vitamin C Values Of Available Foods Are Compared

Canada's food rules call for one serving of tomatoes or citrus fruits or their juices every day. These are the food which are the best year-round sources of vitamin C and one serving supplies more than half the day's needs. The rest of the day's supply of this vitamin comes from the three servings of vegetables and the one serving of other fruit, prescribed by the food rules.

If it is not possible to use citrus fruits or tomatoes daily, extra servings of vegetables and other fruits will help make up the lack. To show how these compare with citrus fruits in vitamin C value, Nutrition Services at Ottawa has worked out the following comparisons:

A value of 15 has been set for one serving of citrus fruit or tomatoes and on that basis extra servings of the fruits and vegetables listed have been given comparative values.

One-half cup applesauce; 2 small bananas; 3; 1 cup cooked black currants; 15; 1 cup cooked blueberries; 15; 1 cup cooked cauliflower; 5; 1 cup cooked or raw cabbage; 5; 1 cup cooked green or wax beans; 5; 1 cup cooked peas; 5; medium baked potato; 5; (a boiled potato counts only 3 while the same potato mashed doesn't even rate); 1 cup cooked squash; 5; 1 cup cooked turnips; 5; 3 large raw turnip sticks; 3 strips of parsley; 3; 4 large radishes; 3.

Must Assume Cost

People Will Have To Supply Money For Social Security Plans

The finding of the money for all these social security plans with whom our advanced thinkers are presenting us is not as simple as some people suppose. The Government, contrary to a wide, vague general impression, has no money of its own. The Government's money is the people's money; and all the cost of these plans and blueprints for our well-being, no matter how good they may be, must come out of our own pockets—out of pockets already pretty well emptied by the searching hand of Caesar.—Ottawa Journal.

HARD TO BEAT

Housewives of Knudshill, England, population 400, have challenged the rest of Britain to beat their knitting record, per population. They have knitted 7,363 garments for the three services and made 103 garments for hospital patients. 2563

High Potato Yields

British Columbia Grower Produced 900 Bushels Per Acre

The distinction of having grown what is considered to be the highest yield of potatoes per acre ever obtained in Canada—900 bushels per acre, of which 883 bushels were of marketable grade—goes to Leslie Gilmore, R.R. 1, Steveston, B.C., when he took part in the 1943 potato competition of the Columbia Potato Growers' Association, Lulu Island, British Columbia. The Association has held these competitions annually for the past 10 years with the object of benefiting the potato industry at large by increasing yield per acre, quality, and demand, and by obtaining more uniformity in type.

These annual competitions are assisted by persons interested in improving the potato crop and by officials of the Dominion Department of Agriculture who also act as judges and verify the yields. In 1943 competition, the members of the Association in general obtained the highest yields per acre they ever had. Also the quality of the crop was much above average. The variety for the competition was "Netted Gem" which is popular in British Columbia and in several of the Western States. It has been grown commercially in British Columbia and Alberta for the past 40 years. "Netted Gem" is not considered to be one of the highest yielding varieties, hence the 1943 record yield is all the more outstanding. Incidentally, the fancy wrapped and boxed potatoes imported into Canada and sold as "Idaho Gems" are the same variety as "Netted Gem".

SELECTED RECIPES

SMALL FUDGE CAKE

- 1 cup butter or shortening
- 2 (1-oz.) squares unsweetened chocolate, grated
- 1 cup sugar
- 1 cup corn syrup
- 1 cup water
- 1 egg, unbeaten
- 1 teaspoon vanilla
- 1 cup sifted pastry flour
- 1/2 teaspoon salt
- 1/2 teaspoon baking powder
- 1/2 teaspoon baking soda
- 1 cup sour milk

Melt butter in top of double boiler; add grated chocolate. When melted, add sugar, corn syrup and water and beat until blended. Remove from heat and cool. Add unbeaten egg and vanilla; mix thoroughly. Add sifted dry ingredients alternately with sour milk. Pour into a pan 8" x 8" x 2" lined with waxed paper, bake in a moderate oven (350 degrees F.) for 35 to 40 minutes.

Hon. Charles Daley, labor minister, introduced into the Ontario legislature the Labor Relations Board Act, 1944, under which the new dominion war industry labor code will be applied to all industry in Ontario except farming, domestic servants, police forces, the hydro electric power commission and municipal bodies.

Spectacles were invented by a monk in Florence, Italy, in 1135.

We Can Do Better

IN the past, wars have brought with them a high cost of living, ending with inflation.

This sapped the strength of nations and added poverty and injustice to the other tragedies of war.

Later it has led to falling prices and unemployment.

In this war, we Canadians are determined to head off this danger.

We have done much to avoid a repetition of the disastrous price rises of previous wars. We have paid higher taxes. We have bought Victory Bonds. We have severely limited profits.

We have put a ceiling on prices. And to make it possible to hold the ceiling, wages and salaries have been controlled.

In one way or another most increased costs have been absorbed and very few passed on to the consumer.

Holding the ceiling has been a struggle. But the results have been worth while. From 1914 to 1919 prices rose 60%. From 1939 to 1944 the rise has been only 18%.

This effort of the Canadian people has been successful enough to be noted in other countries.

But we must continue to hold the line. We need not let history repeat itself. We can do better.

We can all help—

By cutting down unnecessary spending, and buying Victory Bonds instead.

By not hoarding or buying in black markets.

By not taking advantage of the war situation to press claims for higher prices, higher wages, higher rents or higher profits.

(This advertisement is one of a series being issued by the Government of Canada to emphasize the importance of preventing a further increase in the cost of living now and deflation later.)
